THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY,

JOHN DWIGHT & CO'S SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefore adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

EDITORIAL CORRESPONDENCE OF THE SENTINEL

MADISON, March 15, '52

I resume my minutes of the under current here, after an interval of two or three days, which have not been marked by events of any great interest

This morning the two Houses, in Joint Convention assembled, elected three Commissioners of Public Works, and a Register and Receiver The strenuous effort which Mr Croswell and his friends have made to secure his re-election failed entirely and 36 votes was the largest number that he received at any one time

The whole number of votes cast was 83, Mr Squires, of the Senate, and Barber, of the House having paired off. Politically the members stand *Senate*, 12 "democrats" (Mr. Bennett being no longer recognized as a distinctive free soiler,) and 6 whigs. *House*, 30 whigs, 29 "democrats, 6 free soilers. To elect, 42 votes were required

On the first ballot in addition to the 36 whigs Messrs. Barlow, Burgess, Cooper, Fellows and Sholes, free soilers, and Mr Clemons, democrat voted for Mr Richardson, giving him 42 votes and electing him

On the next four ballots, Messrs Barlow Burgess and Cooper voted for Mr Prame (whig) each time, Mr Fellows on all but the 2d, and Mr Sholes on the 5th Mr. Utley voted throughout with the "democrats"—concerning which I shall have something further to say Dr Peak voted for Mr Prame after the first ballot Mr Burgess voted with the whigs on every ballot and Messrs Cooper and Fellows after the 2d through the morning

On the third ballot for Register, Messrs Barlow, Sholes and Utley voted for Henning, and Messrs, Burgess Cooper and Fellows for Bashford, Mr Clemons voting for Mr Bashford

In the ballot for Receiver, Messrs. Burgess, Cooper and Fellows voted with the whigs, Messrs Barlow and Utley with the democrats, and Mr Sholes for John Bannister

The result of the election is that the Whigs, having by the aid of the free soilers, and one or two democrats elected a majority of the Board of Works, of course can control the work, but as the old officers remain in charge of the offices of Register and Receiver, the Commissioners elect have a very unpleasant responsibility before them Messrs. Richardson and Prame are abundantly competent and able to bear this responsibility, but it is quite possible that they may not feel inclined to take it, in the present state of the work They are just in the situation in which they can and would receive showers of abuse for any wrong which may appear, while, under the existing state of things they will probably be able to do very little good Still, they may, by accepting the posts to which they have been elected, prevent the state from being involved in debt any further than at present

Before the voting commenced this morning, Mr McNaughton arose, and asked the privilege of making a statement in explanation of the votes which he should probably give at this time He said that "as a democrat, he had attended the caucus on Saturday evening and participated in its action—that he had since learned that, by some bargain among the free soilers and the democratic members of the Senate, relative to killing a certain bill (the Fox River Valley R R bill)—he and a large portion of his constituents had been sold—that he considered that he had been ill treated, and was not bound by the nominations made in the caucus

Mr UTLEY said that the charge, levelled at him, that he had made any bargains binding the free soilers was false—he challenged any free soiler to arise and say that he was so bound, the free soilers had been spurned by all parties and were independent of all—and he thought that Mr McNaughton only made his statement as an excuse for "sneaking out of his party's agreement"

Mr McNaughton denied the charge of desiring to sneak out—repeated his former statement—and, referring to Mr Bennett, stated that a democratic Senator had declared that if the bill referred to was not killed, he would vote the whole whig ticket

Mr BENNETT here arose, and denied the charge *in toto* He declared "that no such proposition had been made by any democratic Senator"

The sequel of all this affair was, that Mr McNaughton voted for Mr Prame and two democrats on the first ballot and though all the rest with his party. Henceforward, when an illustration is wanted of the old adage—"great cry and little wool"—let it be *Mr McNaughton's protest*

Mr Utley's course, in voting for the democratic candidates throughout, is a matter for himself to settle with his own conscience and his constituents I do not feel called upon to comment harshly upon it He seems to have thought it necessary to take some desperate measure to kill a bill which seemed likely to injure his particular constituents, and is supposed to have bargained his vote with the democratic members of the Senate, who *did* kill the bill It strikes me as a brilliant specimen of legislation on the part of the Senators, however Evidently no other freesoiler was included in the "trade"

The Bank bill being the special order in the afternoon, the following substitute for Sec 10 was adopted

Sec. 10 Every bank and banking association organized under the provisions of this act shall pay to the State Treasurer, on the first day of July in every year, a tax of one-third of one per centum on the amount of capital stock of such bank or banking associations the first payment of such tax to be computed at the rate of one-third of one per centum per annum from the time of filing the certificate required in sec. 13 to the first day of July then next succeeding If any bank or banking association is aforesaid shall neglect to pay said tax for ten days after it shall become due, notice of nonpayment shall be sent to such delinquent by the State Treasurer, and if payment be not made within twenty days thereafter such delinquent bank or banking associations shall in addition to the tax aforesaid forfeit and pay to the said Treasurer, for the use of the State one-third of one per centum on the amount of its capital stock The above tax and forfeiture shall always constitute a lien on the interest of the stocks deposited with the Treasurer, as provided in section 5 and in case of non-payment of such tax and forfeiture, or either of them, the Treasurer is authorized and required to revoke the power of attorney granted such delinquent as provided in sec 8 collect the interest of such stocks, and apply the same to the payment of said tax and forfeiture or of either of them and hold the balance, if any, subject to the order of such delinquent If the interest of said stocks shall be insufficient to pay said tax and forfeiture the treasurer, after deducting the amount of said interest may collect the balance by action of debt in any court of competent jurisdiction in the name and on behalf of the State Said capital stock shall be exempt from all other taxes, except as provided in section 17 of this act

Sec 11 was stricken out, as recommended by committee of the whole

The amendment of the committee of the whole to Sec 12 providing that, before any person or persons shall obtain circulating notes from the Comptroller he or they shall deposit bonds to the amount of 25 per cent in addition to the securities before provided W H W

MADISON March 16, '52

The House begins to be wearied out and the work to flag—a sure indication that it is about time to adjourn The morning hour was occupied with a series of discussions and divisions, and calling of ayes and noes, upon various resolutions looking to the non-reception of new business after certain dates—to fixing a day for adjournment—and to cutting off the postage on matter sent from here The result of the whole was to pass resolutions to receive no new business after the 29th, and to pay no postage on printed matter sent from here after to-morrow. The Senate has yet to act upon them.

The long time occupied in these matters provoked many of the members, and when Dr Wood sent up a resolution declaring that the House is fooling away a great deal of time that might be better employed, it was passed by a decided majority

A message from the Governor, covering a communication from the Librarian was read to the House Mr Dudley states that there are in the Library no copies of the Laws of the Councils of 1836—37—38—39— or 40 and but two copies of those of the councils of 41 and 42, and the Legislature of '48 These volumes should be supplied by some means

Sheriff White's bill for removing the State prisoners to Waupun which passed the Senate some weeks since, and was amended in the House, by cutting it down considerably came back to-day from the Senate with the message that that body refuses to concur On taking a vote, the House refused to recede from its amendment. Messrs Donaldson and Hoyt, from the committee on claims, explained the reasons for cutting down the bill, giving some specimens of the charges therein to the great edification of the House Judging from their explanations, the action of the committee and the House, is correct enough

Mr Hoyt's project for a memorial to Congress for the formation of a new territory from the northern part of this State and the upper peninsula of Michigan, was passed in the Assembly I have heretofore given the proposed boundaries in this State There are many things to be said in favor of the project and some of them were well presented by the mover of the memorial, but the action of the House seems to be rather hasty, in consideration of the fact that we have not yet heard from the people of that region relative to their wishes Perhaps a large portion of them may be found not to relish being turned back into a territorial condition

The bill abolishing capital punishment and making the penalty imprisonment for life instead, was ordered engrossed by the following vote

Ayes—Abbott Bancroft, Barlow, Botkin, Briggs Burgess Clemons, Coopper, Cramond Fellows, Gordon, Green Hackett, Hosse, Hoyt, Johnson, Lawrence, Mead, Monroe, Moore, Peak, Pierce Phelps Richardson Ricker, Safford Sholes Skinner Stants, Strong, Sugden, Utley, Van Nostrand Weil,—35

Noes—Averbeck, Leck, Burnham Cam, Cate, Catton, Conger, Donaldson, Earnest Fyffe, Graham Hammett Hilliard, Knoell Kinney, Lewis, Maxon, McNaughton, Mott, Patch Powers, Ramsey, Root, Sterling, Tony, Wood, Worthington, Shafter—28

This vote indicates, I am sorry to say, the passage of the bill in the House, though it may be that some of those who voted for the engrossments, will not favor its final passage

The bill contemplating an amendment of Article 4 of the constitution, so as to provide for biennial sessions of the Legislature, and to give each county organized for judicial purposes a member of the Assembly where it has a population of 500 was amended so as to read 1000" instead of 500," and ordered engrossed The Senate has a like bill before it In case it gets through the Legislature, and the next and the people ratify it the first session under the new system is proposed to be held in 1854

The action upon the Bank Law this afternoon will be seen by the report which I enclose, the telegraph not being in operation It will be noticed that the House refused to adopt the amendment made in committee providing for requiring bonds of persons going into banking business, to the amount of ¼ of their circulating notes The maximum of Capital stock was also raised to $500,000, instead of $100,00 as the section came from committee

Most of the afternoon was spent in the discussion of Mr Lewis' proposition to limit the existence of the banks to 15 years In the course of the debate Mr Shafter made an able argument to prove that the Legislature could hereafter alter the general law, a different ground having been taken by some members The House adjourned without coming to a decision on the question and adjourned to 10 A M of Thursday To-morrow we have the grand Legislative Festival Our Madison friends are making great preparations and there will be a good time generally I fear that the state of the roads will prevent their having much of an attendance from Milwaukee

The use of the Hall was granted for a Concert on Monday or some other evening of next week Although no names were mentioned it is understood to be for Mrs Torrey, and our friend Keele, and their party. I doubt not that the occasion will be a delightful one to the lovers of music W H W

Board of Public Works.

The election for the Commissioners of the Board of Public Works, and for Register and Receiver of the State Land office, took place at Madison on Monday last in joint Convention of the Senate and Assembly The letter of our associate furnishes some interesting particulars of the voting There were five ballots for Commissioners, which resulted as follows 83 votes being cast and 12 required to elect —

	1st	2d	3d	4th	5th
Richardson,	42				
Prame,	40	41	41	41	42
Blake	40	39	40	41	40
Proudfit,	41	37	39	39	43
Moorman,	38	21	27	27	28
Croswell,	36	20	16	16	12
Scattering,	10	1	1	3	3

The names in *Italics* are those of the regularly nominated Whig candidates, those in Roman of the democratic ditto It will be seen that the Whigs elect a majority (two out of three) of the Board

For Receiver and Register, the present democratic incumbents, Messrs HENNING and MURDOCK, were each re-elected by *one* majority, the latter on the first ballot and the former on the fourth as follows —

For Receiver —Murdock 42, *Shafter* 39, Scattering 2

For Register,	1st	2d	3d
Bashford,	39	39	40
Henning	40	39	42
Scattering,	5	1	1

CHEVALIER WYCKOFF SENTENCED TO IMPRISONMENT —A late Genoa Journal announces the trial of Henry Wycoff Louis Vaunund, French Courier and a Genoese named Louis Cavallaro, on a charge of abducting Miss Gamble The Genoese was acquitted, but Wyckoff, and Vaunund were sentenced to *imprisonment for fifteen months each* This curious case is thus settled at least for the present

A writer in the *Philadelphia Bulletin* denies the statement that the lady whose name has been employed in connection with this affair, is a native of Philadelphia She is the daughter of Col. Gamble of Florida, and niece of the late William Wirt

" If the lowest bid is decided on then we claim it For the *Sentinel's* proposal is not a *bid* in law, or in fact, and a bond to do the printing under it, would be void —*Free Democrat*

Our bid is just as good, in law or in fact as that of the *Free Democrat* and if accepted, will be fulfilled to the letter We will give both word and bond for that

As the *Sentinel* has denied so many statements that every body knows to be true we leave the public to be ample be ween us —*Free Democrat*

Contents, say we There is not a *single* statement of the *Free Democrat's* which we have denied that *anybody* knows," or can prove to be true Nor do we believe that the *Free Democrat* would have hazarded them, but for the hope of prejudicing the Council against the *Sentinel* and then securing the spoils" itself

The statement in the Sentinel, that that Journal was selected as the official paper *before* it put in its gratis bid, is mere gammon — *Wisconsin*, of yesterday

We must put PECKSNIFF in the Pillory again The *Sentinel* was selected as the official paper at the meeting of the 19th of June, on motion of Ald Johnson, by a vote of 9 to 5 Our "gratis bid" was put in at the *subsequent* meeting, June 26th What next?

ATTRACTIVE COMBINATION —Grain's fine Panorama of the Hudson River, from Sandy Hook to Albany, and of views in Virginia, will be exhibited at Gardiner's Hall *this* evening Previous to the exhibition the Raymond Family will give another of their pleasing entertainments For particulars see advertisement and programme

Hibernian Festival

The Festival of the Hibernian Mutual Benefit Society, in commemoration of St Patrick's Day drew together a large and pleasant company at Gardiner's Hall, on Wednesday evening An abundant and well-served supper was provided by Mr GOFF, and at 9 o'clock the Society and their guests, ladies as well as gentlemen sat down to its discussion After full justice had been done to this part of the entertainment the President Mr. McDONOUGH led the way to the intellectual portion, in an earnest well considered and reasonably brief address, which was heartily responded to by his audience The Regular Toasts of the evening were then read by Dr Johnson and each in turn received with appropriate honors and applause and followed by music from the Band LUCAS SEAVER Major McMANMAN Dr JOHNSON, Sheriff WHITE, and other officers of the Society, were next called upon and responded to the call in fitting speeches, or stirring sentiments Some of the guests of the evening Mr KILBOURN, Mr RAYMOND Mr BOOTH, Mr McARTHUR Mr G and others were then, in succession, called for and made answer, each for himself, in good set phrase, or pithy toast, very much to the enjoyment of the numerous audience The evening exercises were prolonged till near midnight, when, on motion duly made and carried, the Company adjourned, some to seek their homes and others to finish off the festival with a social dance in the Hall

The whole affair passed off most agreeably and in its preparation and management reflected great credit upon the Committee who had the matter in charge and upon the Society in general The Supper, in its abundance, variety and serving-up, was one of Mr GOFF's best efforts, the speeches and sentiments were in good taste well-compressed and well-delivered The proceedings throughout were conducted with great spirit and yet perfect decorum, and with a degree of good will, friendly feeling and general harmony which in itself was a real pleasure to witness The Hibernian Mutual Benefit Society may well be felicitated upon the entire success of their fourth Anniversary Festival

☞ Mr MENZIES whose communication in Wednesday's *Wisconsin* was the subject of some strictures in our yesterday's paper, offers the following explanation on the subject

To the Fire Department.

I regret exceedingly that the Sentinel construes my remarks of last evening into an attack upon the Fire Department, as I thought I had sufficiently guarded against such construction, and it is the more unlikely that I would be guilty of such an offence when almost all my intimate and personal friends belong to one or others of the several companies If I have unintentionally done them the wrong it complains of, from any misapprehension I can only offer an apology as ample as the offence was public and which I hope will be received with the same spirit as that in which it is offered R MENZIES

We do not doubt the sincerity of this frank explanation, and while we still think that the article in question was fairly amenable to the censures we passed upon it, are entirely willing to believe that no offence, or injustice to the Fire Department was intended by Mr MENZIES

DEATH OF DR DUNCAN —Hon ALEXANDER DUNCAN, for many years a member of Congress from Hamilton county, Ohio, was accidentally drowned on Tuesday 9th inst He was in pursuit of game at the Red Banks on the Little Miami about eight miles from Cincinnati He fired and killed a dipper duck in the center of the stream Being without a dog he divested himself of his clothing and plunged into the stream After reaching the duck, he made an effort to reach the shore but failed and was drowned His body has not yet been recovered

MAINE LIQUOR LAW IN NEW JERSEY —The New York *Times* says — A long debate on a law similar to the Maine Liquor Law was concluded in the New Jersey House of Representatives on Friday Finally the question was put and the Bill defeated yeas 13, nays 46 The Trenton American says the law "was amply discussed but was finally decided to be unconstitutional impracticable, fraught with mischief, and out of its latitude "

GENERAL CASS AND THE IRISH —The N Y *Truth Teller*, once a most thorough going Cass organ, comments upon his declining popularity particularly among the Irish citizens

In 1848 General Cass was the nominee of the democratic party, was decidedly and deservedly a most popular man with the adopted citizens, especially the Irish The popularity and excitement consequent on his first nomination, will not we fear attach to the second Besides the recent grounds taken by Gen Cass on the question of intervention will not we fear, do him much good in the country

POLICE COURT, Feb 13 —A warrant against Major McManman was issued Wednesday, for an assault and battery upon Ald Hickey The Major appeared to-day in Court, and his trial was adjourned to next Monday, having given bail for his appearance

George St Patrick and Mr Eisfeld, watchmen in the 4th Ward, had their examination for assault and battery, with intent to kill one Ward Defendants discharged, in absence of any proof of the intent to kill

BRIDGE WAR —There was a small bit of a row in the Second Ward, yesterday morning growing out of the construction of a new bridge on the site of the old Red Bridge Some of the good folks in the Second Ward undertook to stop operations while others from the First were for pushing ahead From words the belligerent parties got to blows, but before the shindy had made much progress the Mayor and Marshal put a stopper upon it

FIRE AT EAST TROY —The store of Mr F H BALL, at East Troy, was destroyed by fire, with all its contents, early yesterday morning The loss is stated at from $5000 to $6000, and there was an insurance of $3000 on the goods and of $6000 on the building in the North Western and Etna Insurance Company

☞ The Telegraph Lines East are still out of order, as they have been for a fortnight past so that we can get no news from that source and the roads are so bad that the Mails are greatly in arrears

THROUGH TICKETS TO DETROIT —Mr GOODRICH, Agent for Ward's Line, desires us to state that *through* tickets to Detroit can be obtained on board the steamer, leaving this port every morning, and connecting with the Central Rail Road and Daily Steamers from Detroit to Cleveland and Erie

WINTER AGAIN —There was snow in the air, frost in the ground and ice in the River, yesterday At 8 A M the Mercury was within 12 degrees of zero, and continued below freezing all throughout the day

☞ The damages to the Milwaukee and Mississippi Rail Road, by the freshet of last week, are so far repaired that the Cars will run again to day or to-morrow

WELLAND CANAL —During the ensuing season vessels will be permitted to navigate the Welland Canal by night as well as by day and the locks and bridges will be lighted at night The Canal will be open about the 20th

☞ The *Wisconsin* of yesterday revamps several of its exploded fictions about the *Sentinel* but as none believe, we shall not waste time in again contradicting them

RETURN OF GEN GILMAN —Gen John C Gilman who left this village about three years ago for California returned on Wednesday of last week We never saw him looking more robust, and he assures us that he never enjoyed better health than while in that country He thinks the climate of California is incomparably better than that of any other portion of the United States, and were a larger portion of its soil adapted to agricultural purposes, he should not regret the heavy emigration now setting in that direction, but as the mining business is becoming more precarious, and every branch of trade is already full, he is confident that a large proportion of the emigrants of 1852, are not only doomed to disappointment, but that they will, before being in the country three months, suffer for even the necessaries of life — The large addition to the population of the country the present season, will have the three-fold effect to lessen the profits of mining, to reduce the price of labor, and to increase the price of provisions.— *Watertown Chronicle*

Trial of Wm. Ratcliffe for the Murder of David Ross.

BEFORE JUDGE HUBBELL

District Attorney Butler and E G Ryan for the State

J E Arnold and A D Smith for Prisoner

SPEECH OF E. G RYAN—CONTINUED.

TUESDAY March 10

The first pool of blood was found set ewhere on a line with the lots—the next pool where the body was lying This is a description of the ground and of the body when found—he head to the east—the left north-west lying by a stump There was an injury inflicted on the hat, which broken in a flattened form as if by a blow from some instrument You remember the smash over the eye—the body was rifled of the belt into which the murder did not half fit his money his gold his watches and his jewelry—all was taken away except a few things—the belt was belted round his body, and when found, his linen and his under shirt are all pulled up—the belt cut across and torn his wristband—how haste—the murderer knew the risks That the danger of blood was upon him—the murderer must have been within speaking distance when the body was first found It may be that he heard them and heard the dogs bark He was in haste and he pelled his soul before God and man If he had had time he built would have been unbuckled There was an injury done to the hat—it was broken in by the blow of some instrument There was a cut on the temple—one lengthwise and another running down meeting it and a contusion of the eye or what is commonly known as a black eye There were two wounds to produce death except the one that was on the temple, and the smash The wound on the temple, had a straight cut edge next the forehead entering in the bone—an actual forcing in of the bone varying from a semicircular to a triangular wound The back of the head was broken in by a wound 2 or 3 inches long — Now, this wound on the temple was a very peculiar one No one could conjecture what made it Dr Hatchard and all the others described it as a wound for which they could not account They could not imagine an instrument which made it they were puzzled—the whole community was puzzled until the secret was discovered I have no longer pathetic appeal to you for the murdered man But I say a more brutal horrible murder never was committed—and if the prisoner committed it, a more villainous murder never occurred since the death of Abel No eye witnessed the blow—no eye saw the head smashed in But God's eye saw it The same eye which is witnessing your deliberations now saw it It is now on you seeing your hearts and your consciences He ordained that the murderer should leave his track behind For every one of those cases which they quoted, 100 murderers have escaped, because of the difficulty of conviction Murder will out but it is not always punished as it ought to be Who murdered Ross I give the testimony so far—but I ask you now from this circumstance which binds him to the *corpus delicti*—this damning link—who murdered David Ross I say that if you had no testimony but that and that I had simply stated the antecedents of the murder I tell you that every eye in this multitude would turn to that man (pointing to the prisoner) with the ink which binds him to the *corpus delicti*—the antecedents would conclusively fasten the guilt on this unhappy man I must go further in the case I represent the prosecution here—I have given you my own views But that solemn question is for you to determine And again I say to you cast out of your minds any bias or prejudice—rely alone on what is sacred and true and give the benefit of every reasonable doubt to the prisoner give a merciful construction to the testimony It is a case of circumstantial evidence exclusively, and a great deal has been said about it But it may be the strongest kind of proof I put the question to you whether if any one man had gone to the place of the murder, and had seen the whole in fact did all told you about it—and this was all—would you be more convinced of the truth of his conviction of his guilt? Perjury I am sorry to say is not an uncommon crime A single witness might be perjured without detection on cross-examination—and on such testimony there might be a conviction

[Counsel here illustrated the difference between both classes of evidence, and continued]

So it is with circumstantial testimony—the same chain of circumstance is far stronger than a single link You are not at liberty to believe a man and doubt the jurors—if you believe a man you must believe as jurors You have taken an oath that you had no prejudice or bias on your mind for or against the prisoner—and if you are convinced you are convinced from the testimony Unless you would act on motives of the highest concern on your oath on the same evidence—I must put the most extreme case—unless the same testimony would induce you to put away your wives on a charge of infidelity If we doubt and the prisoner guilty I will exclude the testimony of Hartman and Mrs Smith and ask for your conviction without it The evidence is still that Ratcliff was the last person seen with Ross in life I will not dwell further on these antecedents—having no common association—no habits alike—no sympathies—no ties between them Ratcliff knew of his money—he raved of it—it is said his conduct was irrational—crime is always irrational He talked about his money—he knew about his belt *Tille* said the prisoner was not the man who was with Ross when the belt was purchased

[Here counsel read the evidence of L, and commented on it with the view of showing that his description of the man corresponded with the prisoner as he must have appeared then, and continued]

God forbid I should assert that he was the man—I say he neither proved or disproved it — Apart from that it is impossible to conceive that he did not perfectly know it It the flannel was not sewed on the belt a Recce's—when was it sewed on Ross visited groceries and such places but no private house except Ratcliff's— it is obviously the sewing of some one skilled in sewing It is possible he may have gone to a seamstress to have it sewn on, but it is unlikely— the probability is that it was sewn on at Ratcliff's I don't state this as a fact I merely give it as my opinion I must remind you again about his declaration of getting money when he expected no money but the money of Ross—and his declaration about the note That is a significant fact in the case One other fact I forgot to mention—at the time Ratcliff was willing and anxious to make a sacrifice to get the note of Warden and Ross was lending David Kinman $50—showing no want of money on his part—low as to his brother they called Brown to prove he had a brother in Cincinnati—he was here after the arrest, but Mrs Culver swears that he had no expectation from his brother for that he wrote to him in reply, to Ratcliff's request to send him some money that he would see him damned first It was all untrue and if it true the brother would have been here to testify on his behalf So that all his declarations were false—he is a self proved guilty convicted man

His bargaining was no vague declaration—he expected the money of Ross From the day he went to Quick's shop the idea of murder was in his brain, Let us hope it was still contingent let us hope that every resource was exhausted before the idea of murder became fixed in his mind—we picture him to the point he shrank—it is probable he would and might—no man ever murdered another who did not think whose hand when he came to consummate the fatal deed was not checked by the great command of nature—the murderer is moulded as others are he is subject to the same laws, and I can well believe he did shrink—that a single resolute man became a coward, his heart palpitated as yours may when you render your verdict With what weapon was that murder done? With what weapon were those terrible blows inflicted One man only did it The murderer bought only one weapon with him —what weapon was that that was the puzzle They say we have not proved the connection of the prisoner with the weapon—we proved he went to Boggs shop He asked for some 15 inch Iron that he took a piece and turned an eye in that Ratcliff and Quick did weld a head on it—he said he would and that Ratcliff went out—that in his absence Quick did weld a head on it, and when he finished the job he threw it down by the anvil and went to dinner at 12 o'clock that they all went to dinner but Holmes—that Holmes sat down in the shop to eat his dinner that Ratcliff came in, that no one else came in and that when Quick came back from dinner this weapon was gone and further he never afterwards enquired about it It has does not know what will It is therefore brought home to him Mrs Thompson knew all about the weapon he had it—then what weapon made those wounds the weapon and so far as the science of surgery is known, and so far as the science of Mechanics is known this weapon did her under Dr Hatchard Dr Orton did corroborate it—what weapon but this could make such a wound where is the watchman's cane could cut such a clean cut—all the wounds were inflicted by one and the same instrument—and there is the weapon which would do it The contusion of the eye may have been produced by the hand But the hole in the head was done by this instrument the hat is found broken on the street, but there were no pools of blood there this is material there were only a few spots of blood found on the street

The murder was not consummated there—it was not in the street that Radcliffe did the deed In the street there was an attack, according to Sheldon—he saw the scuffle I can only speculate, but that it was done, I have to establish There was first a blow with the fist on the eye, then a glancing blow on the forehead which made the cuts—then a glancing blow on the top of the head which took away the lock of hair—that scalp lock which was the only memento left for his poor, broken-hearted mother In the street there was an attack but no deadly wounds were inflicted there, and in that scuffling in which his forehead was cut, one of two things happened, either Ross was made insensible at the commencement, or he turned Westward and fled from the street—he was not murdered in the street The hemorrhage of the amputated vessels did not occur until he was on the marsh—the terrible blows were not given in the street My belief is that he fled—he was not dragged across the dusty street—he fled from his pursuer and Radcliffe after him I cannot say Radcliffe, but the hand that held that weapon There is an immediate pitch downwards from the line of the lots to the marsh and either hand of the prisoner may have struck that blow on the left temple of Ross fleeing I do not know whether the pursuer is left handed or not—it is not proved—though it might have been a swinging blow from left to right, as he pursued him One went is to the mean testimony of Dr Wolcott's testimony

[Here counsel cut a piece of paper to represent the shape of the wound and after commencing on the testimony of Dr Wolcott proceeded]—

Such a wound as that could only be accounted for by such a terrible weapon I conclude therefore that the first fatal blow was struck on the left temple as he fled Westwards—that he fell somewhere about the line of the lots and left the first pool of blood there he was lying head from and feet to the street—he was dragged by the legs over the marsh and he was cast where he was found lying, and the hemorrhage made the pool of blood there it was a dark night and the extent of the injury was not readily discovered The efforts of the murderer must have been rapid The thing the hardest to believe is the *corpus delicti* the death the place and the time and it not established, it would be hard to believe it It was a bloody deed The body was found with the shirt pulled up rifled of the belt part of the belt remained, the balance was cut and torn away it was cut by the hand of some one who well knew where to find it The probability is that it was caught by something which retained it All the testimony shows that the body was there only a few moments when found by Hoffman and Mann Which way then did the murderer flee Apart from the foot prints it is safe to say he did not flee in the direction of the dogs, he did not flee westward for there were two enclosures on the opposite corner of that block he fled across that marsh for he had no other place to flee too he heard them and he fled to avoid them If Sheldon, the German boy, was a few years older it he was possessed of the courage of many of his countrymen who fought in the late Mexican War Ross would have been saved and Radcliffe too He was a timid boy, he did not apprehend murder he thought it was only a fight and he went home It was a dark night and the murderer fled across the marsh — Grove street was newly graded it was a light clay it being lately cut down There is where he fled, without any tracks, all would have said he fled westward across the marsh

Tragedy in Iowa.

From the Muscatine Enquirer we learn the following particulars of a fatal affray which occurred in *Muscatine county on Wednesday afternoon* last.

Three years ago, Mr. George McCoy, at that time a citizen of Cedar county, left for California. His wife with her children, after he left, sought the protection of her father, Mr. Benjamin Nye, an old and worthy citizen, living at the mouth of Pine river, in this county. After he reached the land of gold, Mr. McCoy wrote frequently to his wife, and forwarded considerable sums of money, the letters and money passing through the hands of one in whom Mr. McCoy had every confidence as a man of honor and a friend. But how he erred and how deeply he was betrayed, has become a familiar tale where these events occurred. On his return from California, having been successful in his quest of wealth, he was met by this tale of infamy. He met his wife, however. The scene between the heart broken husband, the shame-covered wife, and the group of trembling, tearful and wondering children has been touchingly described by an eye-witness. Mr. McCoy removed his children (four) from their mother for a short time, but subsequently consented that they should remain with her at their grandfather's (Mr. Nye) until he left for California in April next. This was about two months ago. On Wednesday last, McCoy came from Cedar county for his children.—He stopped at Mr. Chamber's and requested permission to bring them there that night, which was granted. He then went to Mr. Nye's in a wagon, got the four children he claimed, and started on his return to Chambers'. What occurred at Mr. Nye's we are not advised. On approaching Mr. Chambers' as he returned, accompanied by his children and a Mr. Long, he was overtaken by Mr. Nye, his father-in-law, and Mr. Patterson, also a son-in-law to Mr. Nye.—They drove in advance of McCoy, so as to intercept his wagon. Mr. Nye got down and approached the wagon containing McCoy and company, making as he did so some remark which the witnesses did not hear, except that it related to the children. McCoy stood up in the wagon and warned Nye not to approach; Nye continued to advance, however; McCoy drew a revolving pistol and repeated the warning; Nye still advanced; and attempted to, perhaps did, get hold of one of the children, when McCoy fired. The ball took effect in the right shoulder, making a slight wound. Nye then stooped for a club; McCoy shot the second time, the ball striking in the back, but only penetrating the clothing. Nye then advanced with his club; McCoy shot for the third and fourth time, with but little effect; he was knocked or pushed from the rear of his wagon, and in recovering his feet dropped his pistol. Mr. Patterson then laid hold of McCoy behind, as if to hold him. Nye came at McCoy with his club again, saying to Patterson, "Kill him," &c. McCoy, releasing himself from Patterson, threw the latter in front of him, when Nye's blow took effect on P., breaking his collar-bone. McCoy had drawn a bowie-knife, and on Nye again advancing, sprung at him, and avoiding his club, stabbed him in the breast. Nye still attempting to strike, he stabbed him the second time, and third; the third stab was to the heart, and Mr. Nye fell dead at his feet. There were several witnesses to the whole affray, but so soon was it over that no effectual interposition could be made. McCoy gave himself up, and is now awaiting his examination, which will take place as soon as Mr. Patterson is sufficiently recovered to appear in the witness stand.

Murder.—A most horrid murder was perpetrated early on Friday evening in this city under the following circumstances: Mrs. Frances Burnhoff, the wife of a German, named Henry Burnhoff, who resides upon Orleans Street, in the 7th ward, was occupied about her household employments, having no one with her in the house except two children, one of which was an infant, asleep in the same room. A gun or rifle was fired from the street through the window, the ball from which penetrated the heart, and, passing through her body lodged in the opposite wall. Her condition was not known until 9 o'clock P. M., when her husband returned and found her dead upon the floor, the children being asleep in the bed. The trunk which had contained some $20 was stated by him to be broken open, the money gone, and the door of the house opening to the street was found standing open.

Her husband, who has been for some time past in the employ of Dea. R. C. Smith, is at present engaged in building a house; and during the evening several workmen employed by him, called at the house for their week's wages, and were paid by the wife who had charge of the pocket-book which is now missing. The husband left his house early in the evening, to procure or change a lock at Newbold's store, whence he went, as he states, to visit a friend, who lives near the Charity Hospital, which place he left to return home about 9 o'clock, which he found in the condition above stated. Bloody assaults, are of frequent occurrence in this city, and are steadily upon the increase. The passions of the violent and depraved, are under no manner of control from the influence of the laws. Immunity from the only adequate punishment for deliberate murder—death—gives loose rein to all bad passions, while hope of escape through the wide and insecure meshes of the law, and the hope of pardon from Executive clemency, practically qualify the restraining power of the punishment, which has been substituted for it. *Det. Adv.* Monday 15th.

Circuit Court.—The Circuit Court for this County, Judge Hubbell presiding, commenced its session at the Court House, in this village, this morning. We learn that the calendar for this term is an unusually empty one.—*Waukesha Democrat, Tuesday.*

A Satire upon Cross-Walks.—Two laborers were seen on Saturday, carrying a well-dressed lady across one of our principal streets on a hand-barrow.—*Detroit Advertiser 15 inst.*

The American Cough Candy.

WE know of nothing in the annals of medicine which has achieved, within the same space of time, so just and general a reputation, as the above invaluable Cough Remedy. Testimonials of its wonderful efficacy in curing the most inveterate cold continue to flow in upon us. We are assured that where ever used it is exceeding all other remedies of the kind. Grevious to relate, the Nightengale had she tested its virtue, probably never would have taken to herself a Gold-climb. She having taken that melancholy step, from the fear that her voice was gone forever; having experienced only temporary relief from the Remedy last taken.

Why is the American Cough Candy like a Black Cloud? Because it goes ahead of Storms.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Graessle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by ocular inspection of the excellent quality of the same. ENNO MEYER,
Druggist, 374 W. Water-st., 2nd ward.
Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Graessle. AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Graessle, have found them perfectly answering the purpose intended. Their practical and sagacious construction recommend this kind of Tile, not only as a fire-proof and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection. Besides this, Mr. Graessle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

OTTO SCHWARTZ, } Architects
VICTOR SCHULTE, } & Builders.
Milwaukee, Feb. 5, 1852.

To G. Graessle:—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof. G. W. MYGATT, Architect.

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!

THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a tea-spoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. Houghton's PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

WISTAR'S BALSAM OF WILD CHERRY

THE BEST REMEDY EVER KNOWN

To MAN, for Coughs, Asthma, Colds, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption, &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced in our ever-varying climate.

WILD CHERRY has long been known to possess important medicinal properties. This fact is familiar to every matron in our land, and physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, again, it was nearly valueless—owing, no doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experiment and long experience.

The extraordinary medicinal powers of these two substances are now, for the first time, combined and embodied in DR. WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process, everything deleterious or useless is rejected, so that what remains is the most extraordinary and truly efficacious remedy for all kinds of pulmonary and liver diseases ever known to man. To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine:

Pleasant Ridge, Ham'n Co., O., September 27, 1850.

J. D. Park—Dear Sir:—I take the liberty of advising you of the benefit I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption, in May last. The attack was truly horrifying to me, for five of our family, (brothers and sisters,) had died of Consumption. I was afflicted with nearly all the worst features of the disease. I had a distressed cough, and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat and copious night sweats.

I was under the care of a skillful physician, from the time I was taken sick until about six weeks since, being then about helpless, and my friends considered my case hopeless, or at least beyond our Physician's skill, and advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge, my father procured it, and commenced administering it to me, and from the first day I commenced taking it, my health improved, and in two week from the time I commenced using it, I was able to be out and oversee my business, and labor, which I still continue to do. I have taken four bottles of the medicine, and now consider myself perfectly well. JEREMIAH ISGRIGG.

Another astonishing Cure!

E. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to

"DR. WISTAR'S BALSAM OF WILD CHERRY."

Rushville, Fairfield Co, O, April 6, 1851.

Mr. J. D. Park—Dear Sir:—I wish to state to you that my daughter, Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians, within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried Dr. "Rogers' Liverwort and Tar." But this aggravated her cough, and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, "Sarah Jane," was cured of consumption by "Wistar's Balsam of Wild Cherry;" this created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief; her health was improved from the first bottle, and by the use of two bottles of "Wistar's Balsam of Wild Cherry," she was restored to perfect health, and she is not at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption, do not despair, for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it.
E. KALB.

The genuine Wistar's Balsam of Wild Cherry has a fac simile of the signature of Henry Wistar, M. D. Philadelphia, and "Sanford & Park" on a finely executed steel engraved wrapper. No other can be genuine.

IMPORTANT TO CONTRACTORS.

PLANK ROAD LETTING.

PROPOSALS will be received by the undersigned for the graduation, superstructure and bridging of the Glasgow and Hunterville Plank Road.

For the information of non-resident contractors, it is proper to state that this road is intended to connect the city of Glasgow, on the Missouri River, with the town of Huntsville, in Randolph Co., Mo., and is about twenty-eight miles in length. The country over which it passes abounds with suitable timber, and in its other respects favorable to the cheap construction of plank roads. There are, however, a few streams which will require bridges of considerable extent.

The time for the completion of the road has not yet been fixed, and though it is desirable to complete the road as soon as possible, yet sufficient time will be allowed contractors. Contractors may rely upon promptness in payments, as the means of the company are ample.

Those who wish to examine the route will receive all necessary information from Maj. R. Walker, the Engineer.

Bids will be received until the first of June next, when it is proposed to assign the work to the bidder or bidders whose proposals may be approved as most favorable to the company. Plans of the work will be ready for inspection first of April.

For the encouragement of contracting companies, it is proper to state that there are two other plank roads in contemplation in the vicinity, both of which will no doubt be constructed.

Communications are required in duplicate; one copy to be addressed to the undersigned at Huntsville, the other to F. A. Savage, Esq., Secretary of the Company at Glasgow. Glasgow, Mo., Feb. 10, 1852.

ARRANGEMENTS FOR 1852.

AS the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1852, and would inform them, that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantage over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with but the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

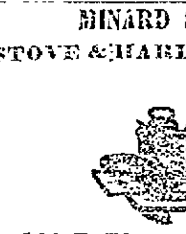

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the AMERICAN INSTITUTE. Of COURSE it is, because it is the BEST SOAP IN USE. A Word of Caution to the Public!

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co, of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY" which will appear by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c. all of which have been got up on the reputation of Perry Davis' Pain Killer. The public are cautioned against these mixtures.

THE HUMAN FRAME
Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN
Disorganizes the whole system, it prostrate the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN
Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF
In a few seconds
WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.
PAIN STOPPED INSTANTLY.
Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.
The use of Morphine, Strychnine, Aconitine, Belledonna Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.* If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,
And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.
Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,
Diarrhœa, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,
It relieves the most severe pains in a few minutes—checks the most distressing discharges, and
SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.
PAINS RELIEVED IN FIVE MINUTES.
Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.
CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.
Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.
Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidney's, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

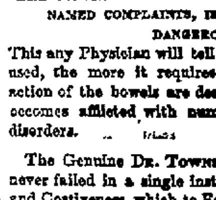

BEAUTY.
Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAY'S MEDICATED SOAP.
Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.
By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.
Imparts nutriment to the hair,—
Makes it stong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.
Radway's Circassian Balm is the "ne plus ultra."

THE GREAT REMEDY
FOR
PILES, HABITUAL COSTIVENESS,
FEMALE COMPLAINTS,

Nervous Debility,
DYSPEPSIA,
OR
Loss of Appetite.

THE CONSTANT USE OF PHYSIC FOR THE ABOVE-NAMED COMPLAINTS, IS INJUDICIOUS AND DANGEROUS:

This any Physician will tell you—The more physic used, the more it requires—at last the tone and action of the bowels are destroyed, and the patient becomes afflicted with numerous kinds of nervous disorders.

The Genuine DR. TOWNSEND'S Sarsaparilla, has never failed in a single instance of curing the Piles and Costiveness, which to Females, is the great cause of those complaints which consume their strength, waste their Nervous energy, and enfeeble the whole Constitution. Mental Weakness is consequent upon physical prostration.

This Medicine acts as a simple, but powerful Tonic. It checks the tendency to exhaustion,

RENOVATES THE BLOOD,
allays NERVOUS EXCITEMENT, and reanimates the
Whole Body with New Life.

DR. JAMES R. CHILTON,
The most celebrated Chemist in the United States, has had charge of the Manufactory for more than a year, and has made many important improvements in the Medicine—from one to two teaspoonfuls of the Improved Sarsaparilla, is all that is required for a dose, to act as a mild Alterative and Tonic.

Beware of Counterfeits.
Dr. Chilton's Certificate, printed on green paper, will be found on every bottle prepared since February, 1850, as well as Dr. S. P. Townsend's signature, on steel plate label on the outside wrapper.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.
[From the Boston Bee.]
The Editor said, Dec. 2d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.
One of the best literary papers published, said, August 25
"DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine"—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the billary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.
They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

GREAT DISCOVERY.
JOHNSON'S CHEMICAL
HAIR INVIGORATOR,
To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually
SCURF OR DANDRUFF.
Prepared only by S. JOHNSON, 151 E. Water-st, FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the lastest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 2m

HATTERS,

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"
from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
